eXactnav™:
Find Available Parking Fast

eleven-x

It's now easier than ever before for drivers to find available parking in real-time with eleven-x's wayfinding app, eXactnav. As part of the award-winning eXactpark™ smart parking solution, eXactnav connects to eleven-x's patented SPS-X sensors to provide accurate, real-time stall status and provides navigation for drivers directly to available spots – meaning no more time wasted wondering if parking will be available at a destination, or circling for parking which causes congestion and unsafe environments.

Parking should be an easy, stress-free experience for every driver. eXactnav allows them to quickly find an available space at any time with the following features:

EASY-TO-USE NAVIGATION OPTIONS

- **Spot** – navigate to a specific stall of your choice
- **Destination** – select your destination to see available nearby parking spaces
- **Zone** – navigate to a zone or area to see available parking spaces

FLEXIBLE FILTERING TO SEE AVAILABILITY BY PARKING SPACETYPES, INCLUDING:

- Regular (paid)
- Regular (free)
- Accessible (ADA)
- Electric Vehicle (EV) stalls
- Quickstop
- Reservations – multiple types
- Motorcycle
- Loading Zones

FAVORITES

- Maintain a list of favorite spots or zones for quick, easy access

HISTORY

- Easily access and navigate to previous parking spots, destinations or zones

NOTIFICATIONS

- **Occupancy:** Notifies you if your target space becomes occupied while you are navigating to it and suggests alternatives
- **Availability:** Select a space in advance and receive a notification when it becomes available

Seamlessly Integrates with eXactpark for a Better Parking Experience

eXactnav™ connects with eXactpark™, eleven-x's innovative sensor-based smart parking system. This means it has access to accurate, 24/7 parking stall status data that allows drivers to optimize their trips based on parking availability.

More Than Just Smart Parking... A Better Experience

eXactnav features a range of benefits that truly make it the smartest choice on the market:

INTEGRATES WITH PAYMENT APPLICATIONS TO PROVIDE A SEAMLESS PARKING SOLUTION

ACCESSIBILITY SUPPORT WITH FEATURES INCLUDING:
- Text-to-speech input
- High contrast text / background design and font size settable either in the app or via OS settings to achieve minimum contrast and font size requirements as defined by W3C

MULTIPLE LANGUAGE CAPABILITIES
- Supports English, French (Canadian) and Spanish

SAFETY-FOCUSED DESIGN
- Minimal interaction with app required while driving: if your target spot or zone becomes occupied, eXactnav will automatically select a suitable alternative

PERSONALIZED SETTINGS
- Metric / Imperial units
- Selecting parking availability radius
- Parking spot type filter and fullness thresholds

Finding parking doesn't have to be a pain. Make it a smooth, stress-free experience with eXactnav™ by eleven-x.
